# FACTS

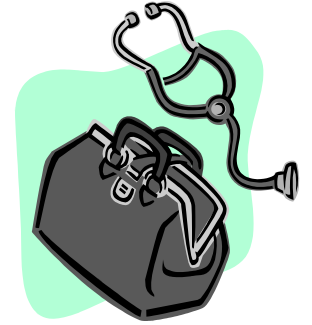

- Individuals differ in their need for blood glucose testing systems. ( One Meter does not fit all.)
- Patient ease of use and confidence with their testing system will result in better compliance.
- Patients in control of their diabetes, have fewer complications and an overall healthier lifestyle
- DSF offers all available testing systems marketed today.
- DSF will always strive to offer each patient the system to best meet their needs.
- DSF has established a dedicated telephone number for physicians, answered by one of our specialists.

# PHYSICIAN REFERRAL ADVANTAGES

- DSF can provide remote glucose value results with their patented IDI system.
- DSF will assist in providing initial monitoring systems from most manufactures at no charge.
- DSF has ongoing interaction with your diabetic patients, ensuring they are satisfied with their current testing system.
- DSF will continue interaction with the attending physician should any issues arise.
- DSF offers scheduled, reliable shipments to your patients
- DSF will always strive to provide your patient with the latest blood glucose monitoring technology.
- DSF is committed to building a trusted and valued relationship between all health care providers and the patient.

# PROGRAM INITIATIVES

- To provide quality Medicare approved supplies to your patients in a scheduled, timely manner.
- Become a trusted source for supplies and information for your patients.
- Provide stress free Medicare claims processing for your patients
- Increase patient compliance, by improving the quality of healthcare and reducing complications.

# PROGRAM APPLICATION

- We provide a simple form, containing an order from the attending physician and a patient release form. This form and other information is also available on our web site, [www.ServiceToDiabetics.com](http://www.ServiceToDiabetics.com).
- This information is then faxed (toll free) to DSF at **1-888-340-3887**.
- Once verification from Medicare has been established, a 90 day supply of product, or the appropriate equipment, will be delivered to the patient by mail.
- DSF will file all claims with Medicare and the appropriate secondary insurance.
- Patient logs and notes are kept on file within our system and submitted to Medicare as requested.
